

MAKE YOUR OWN
Mistletoe

With love, from us to you, we've designed this festive delight for you to deck your halls with!

This document has all the separate sections for you to print. Either select each page at a time to print it separately on different colour paper, or print the whole document together on standard white printer paper, then tape or blu tack each sheet to a colour paper of your choice and cut around the designs.

We'd love to see your completed golden mistletoe creation so be sure to snap & share it on Instagram and tag it with **@papier** and **#lovepapier**

THE BERRIES
